Re: Canyon Cove Site

Dear Jerry,

As you are aware the reclamation work was completed at the Canyon Cove site. It was completed at a perfect time because since it was done a couple of weeks ago it has rained continually. As you are aware I had many problems with access into the site. This completes all the reclamation that we were required to do on the property in back of Canyon Cove. We had previously completed grading, contouring, construction of a berm, removal of asphalt and finally the reseeding of the property. Instead of seeding 3 1/2 acres I seeded 4 acres just to make sure the entire site was covered.

I have enclosed photographs showing the reseeding work taking place. It was done by WRR reclamation. We should have wild flowers all over that mountain shortly. I kept additional negatives to show all the area we reseeded. The reclamation, other than the most recent reseeding, has been inspected and approved by the State of Utah Division of Mines. As you are aware they made us increase the height of the berm and removed additional asphalt which we completed to their satisfaction. I am also sending photographs to the Division of Mines showing the last and final reseeding by WRR Industries, Inc. I have also enclosed the final invoice from WRR industries, Inc. It has been a pleasure to work with you.

Should you have any questions please do not hesitate to contact me.

Warmest Regards,

Walter J. Plumb III
